# LP Bulletin

Monday 3<sup>rd</sup> July 2017

## **Bulletin 1132 - 07/17 – Expanding of Fish Farms around Lanshan Port, China**

**The Club had recently been notified of claims involving our Members' vessels running into fishing farms anchored at the vicinity around the entrance of Lanshan Port.**

The Club's correspondent, Huatai, had issued a circular (1202) on 5 Sep 2012, which to date remains valid.

It is essential for the Members, whom have trade in the area, to make pro-active contact with their charterers and local agents for any update information on these anchored fish farms.

Please refer to Huatai's Circular 1202 – Lanshan Port, China—Expanding of Local Fishery Farms Brings Danger to Safe Navigation of the Vessels around the Area, for further details.
