TO THE MEMBERS

Dear Sirs

STANDARD MARINE COMMUNICATION PHRASES

For several years the Club has been supporting NewsLink, an electronic newspaper sent out to over 3000 ships everyday. The newspaper contains editions with news from over 30 different countries including all the major crew supplying nations.

The Newsletter is supplemented by quarterly CDs distributed to the ships containing more detailed information including loss prevention advice from the Club.

In addition to providing news, the Newsletter is an ideal way of improving language skills as all newsletters are in English. To further this aim NewsLink has produced the enclosed CD which is based on IMO's "Standard Marine Communication Phrases".

Please see overleaf

This CD is an excellent way to assist seafarers of all ranks to improve their understanding of English.

In addition, a further Computer Based Training Disc (CBT) is enclosed which contains instructions on the workings of several well known Microsoft software packages.

The enclosed CDs are complimentary. Should Members feel that more copies of the CDs would be of benefit to their seafarers, further copies can be ordered direct from NewsLink (order form enclosed) at a price of US\$5 each.

Yours faithfully

THOMAS MILLER (BERMUDA) LTD.
