WINDSOR INTERNATIONAL MARITIME CLINIC, INC.

TOWERING UP TO WORLD-CLASS STANDARD

Poised to set an innovative contribution and dynamic role in the arena of Pre-Employment Medical Examination (PEME), and more so, breeze into a continuum of developmental changes in occupational health and maritime medicine is a PEME clinic that was incorporated on June 25, 2013 and was officially named WINDSOR INTERNATIONAL MARITIME CLINIC, INC.

Our laboratory test spectrum ranges from hematology, serology, clinical chemistry and Drug and Alcohol. It applies leading-edge technology and computerization, leading to quick turnaround time at appropriate prices, and is supported by Department of Health (DOH) , ensuring reliability and confidence of results.

Windsor International Maritime Clinic, Inc features the latest High Frequency Digital Radiography System its 500 mA (milliampharage) Machine, capable of doing General Radiography.

Expect that Windsor International Maritime Clinic, Inc. will deliver outstanding job performance because its patients deserve only the best. It is a no-brainer that mediocrity is out of contention. Commonly encountered problems are solved because the PEME clinic is designed to be a one-stop shop where most of the clinical and ancillary tests, notably the fully automated laboratory examinations, digital x-ray, ultrasound, treadmill exercise test and 2-D Echo, are being done in the facility. Even the DOH-accredited specialists spare precious hours of their time just to come personally to the clinic to attend to patients needing medical clearances.

Engaging primarily in the conduct of PEME as required by companies and principals, Windsor International Maritime Clinic, Inc. has complied with the process of accreditation duly set by the Department of Health (DOH) of the Philippines and has aced the checklist of basic requirements in terms of its first rate medical facilities, “truly” world-class equipment as well as special yet unique add-on services, among which is its Telemedicine System, the reason being Windsor International Maritime Clinic, Inc. is among the pioneer PEME clinics in the Philippines that incorporates telemedicine into actual medical practice.
