Bulletin 1140 - 08/17 – Typhoons land in Southern China on 23rd and 27th August 2017

The Club has recently been notified by our correspondent in China, Huatai, of Typhoons “HATO” and “PAKAR”, which landed in southern China on 23rd and 27th August 2017 respectively.

The Club's correspondent, Huatai, issued a circular (PNI1709) on 25 Aug 2017, informing of multiple casualties as a result of both of the typhoons. Both typhoons resulted in flooding of multiple areas in Guandong province, which may affect several of our Members whom trade around the area.

It is essential for the Members, who trade in the area, to be aware of possible cargo claims by the consignee after delivery, which originated from this area during the period between 23rd August 2017 and 27th August 2017.

Please refer to Huatai's Circular PNI1709 – Typhoon “Pakar” Forecasted to land in Southeast China on 27 August 2017, for further details.
